Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

  
Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The Applicant's representative discussed his position regarding utilizing a pulley wheel as taught by Fletcher in the device of Lewis et al. He reasoned that the spring biasing mechanism as disclosed by Fletcher would destroy the functionality of the device of Lewis et al. and that there would be no reason for someone of ordinary skill in the art to have added the spring biasing mechanism to the device of Lewis et al, since the wheel disclosed by Lewis et al. is used primarily as a guide for the suture, and there would be no need to have the expanding capability as taught by Fletcher. All arguments will be submitted in a formal response and will be fully considered by the Examiner.
